BALAJI NAYAK

Full-Stack Developer | App & Game Developer | Founder, Balanju
balajinayak941@gmail.com | +91 83098 61659 | linkedin.com/in/tejavath-balaji-nayak | github.com/nayak-codes

SUMMARY

Self-taught full-stack, mobile, and game developer pursuing a B.Tech in Computer Science, with a track record of independently building and shipping nine software products across web, mobile, AI, and gaming. Founder of Balanju, delivering end-to-end software solutions from architecture through deployment and client delivery.

TECHNICAL SKILLS

Web & Full-Stack: HTML, CSS, JavaScript, React, Angular, Node.js, Express.js, MongoDB, MySQL, REST APIs — used in OurCompiler

Mobile: React Native, Flutter — used in Vidhyardhi, Fruit Rush

Game Development: Unity, C++ — Fruit Rush

AI & Data Tools: Python, REST APIs — AI Resume Analyzer, EAMCET Predictor

DevOps & Tools: Docker, Firebase, Git, Postman, MS Office Suite, Electron

WORK EXPERIENCE / INTERNSHIP

Full-Stack Development Intern — *July 20, 2026 – Aug 20, 2026*

CodeAlpha · Remote

- Built a full-stack e-commerce store with product listings, shopping cart, and order processing.
- Developed a mini social media platform with user profiles, posts, comments, and a like/follow system.
- Built a collaborative project management tool with task boards, project creation, and team task assignment.
- Tech stack: HTML, CSS, JavaScript, React/Node.js, Express.js, database integration, authentication.

PROJECTS

Vidhyardhi — Student Mobile Platform — *Live on Play Store*

Flutter · Android · iOS · Firebase

- Built a cross-platform study app with timetables, notes, and exam prep tools — live on Play Store.

OurCompiler — Online Code Compiler & IDE — *Live*

React · Node.js · Docker

- Built a browser-based multi-language IDE for instant code execution, no local setup needed.

Desktop Wellbeing — *In Development*

Electron · JavaScript · Windows

- Building a Windows screen activity monitor to track app usage and screen time.

Balanju Consultancy — Founder — *Active*

Web Development · Mobile Apps · AI/ML · UI/UX

- Founded a consultancy delivering custom web, mobile, and AI solutions for startups and businesses.

AI Resume Analyzer — *Live*

Python · AI/ML · REST APIs

- Built an AI tool that analyzes resumes and gives actionable improvement feedback.

EAMCET Predictor — *Live*

JavaScript · Data Tool

- Built a prediction tool estimating rank ranges and college options from EAMCET marks.

Fruit Rush — Mobile Game — *In Development*

Unity · Android · iOS

- Designing a casual kids' game with smooth animations and score-based gameplay.

Knapsack Editor & Speed Calculator — *Live*

JavaScript · Web Tools

- Built two no-install browser tools — a photo/PDF editor and a speed-distance-time calculator.

Civics Report — *In Development*

Full-Stack · Civic Tech

- Building a platform for citizens to report civic issues directly to local authorities.

CERTIFICATIONS

- C Programming — SkillMate — 2024
- Python Programming — SkillMate — 2025
